

## BATHING

For over 135 years, we've been perfecting the bathing experience, fine-tuning our offering to deliver exactly what you desire. Our engineers and designers study the movement of water and its effects on the body to develop elegant, stylish products that provide unparalleled immersion experiences with real benefits. As a result, they've created technologies designed to shape and move water and air over and around your body.

## sōk

A reincarnation of the bathing ritual, the sōk overflowing bath with chromatherapy and effervescence creates the ultimate relaxation experience. Completely submerged in this ultra-deep, tranquil pool, your body is lightly buoyant and embraced by warmth. Like an infinity pool, water continuously overflows all sides with a gentle rhythm that soothes the senses. The water cascades over the inner rim into an integral overflow channel, and a built-in heater helps to maintain a consistent temperature.

A sōk overflowing bath with chromatherapy and effervescence

*For technical specifications, see page 270.*

## EFFERVESCENCE TECHNOLOGY

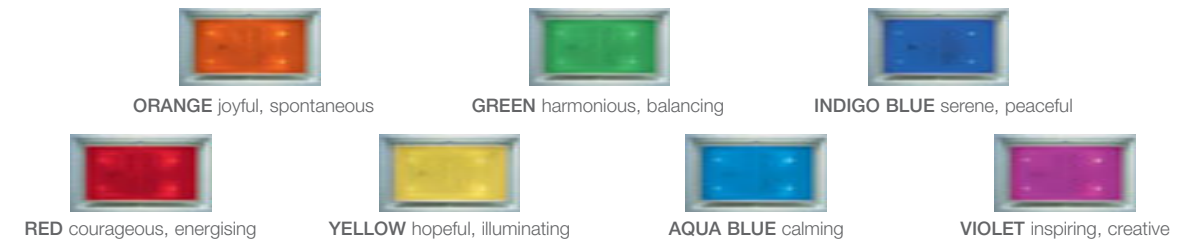

Effervescence bathing technology caresses your body in a warm, slow-moving embrace. Water and air gently travel through unique ports designed to pamper your body with champagne-like bubbles that cling to your skin. The effervescence envelops your body, creating a serene and meditative environment whilst an integrated heater ensures that the water temperature remains consistent. KOHLER® effervescence bathing technology replenishes your body and spirit.

Effervescence technology, offering a delicate caress of champagne-like bubbles.

## CHROMATHERAPY

Using the soothing qualities of colour to relax mind and body, the chromatherapy function features a seven-colour sequence, with each colour believed to have a unique effect on the bather. Warm colours tend to stimulate and encourage a sense of alertness, whereas cool colours seem to deliver a calming effect. Allow the seven colours to sequence or isolate an individual colour to suit your mood. To best enjoy the chromatherapy experience, dim the bathroom lights and let the colours wash over your body and mind.

## RIVERBATH

The RiverBath whirlpool brings the essence of a rolling river into your bathroom with a series of innovative hydrotherapy treatments. Whether you're in the mood for soothing relaxation or an invigorating hydro-massage, the RiverBath lets you transform your bathroom into a personalised retreat. The invigorating rush of the rapids or the relaxing neck and shoulder waterfall massage are available at the touch of a button. Meanwhile, a built-in heater keeps the water at a consistent temperature and headrest pillows add extra comfort. Optional chromatherapy lighting provides a full spectrum of colour that washes over you for a complete sensory experience influencing your state of body and mind.

**A** Neck and shoulder waterfall massage

**B** RiverBath Rectangular with hydrotherapy

*For technical specifications, see page 270.*

## WHIRLPOOL JETS

KOHLER® whirlpool jets are each designed to target specific areas of the body. Flexjet whirlpool jets deliver the optimal mix of air and water and allow you to adjust the direction of flow to suit your mood. Backjets loosen tension throughout the back and shoulders and encourage deep breathing.

**WHIRLPOOL** *invigorating*  
8 Flexjets create a swirling massage

**RAPIDS** *relaxing*  
2 Riverjets create a rolling surface current

**WHITEWATER** *stimulating*  
4 Riverjets provide a raging rush of water

**WATERFALL** *relieves tension*  
Revitalising neck and shoulder massage

## CHROMATHERAPY

Using the soothing qualities of colour to relax mind and body, the chromatherapy function features a seven-colour sequence, with each colour believed to have a unique effect on the bather. Warm colours tend to stimulate and encourage a sense of alertness, whereas cool colours seem to deliver a calming effect. Allow the seven colours to sequence or isolate an individual colour to suit your mood. To best enjoy the chromatherapy experience, dim the bathroom lights and let the colours wash over your body and mind.

## SERENITY WHIRLPOOL SYSTEM

- The air injectors use oxygen enriched air to open the pores and helps to clean the skin
- In-built automatic programmes allow the user to concentrate on specific areas such as neck and shoulders to relieve stress and tension
- The air and water hydro massage function encourages draining of retained water and toxins in the lymphatic system
- Soaking in hot water such as a whirlpool bath before retiring to bed can ease the transition into a deeper sleep

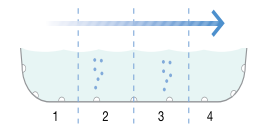

**Water** 2 foot jets, 10 side jets and 2 back jets combine to create a therapeutic warm water. All jets can be adjusted to suit your body shape

**Turbo** Aerated warm water produces a more powerful and intense whirlpool experience

**Air** 15 injectors at the bottom of the bath force warm air into the water, creating a soothing experience

**Relax and Tonic** Automatic programmes combine air and water massage to target different zones of the body

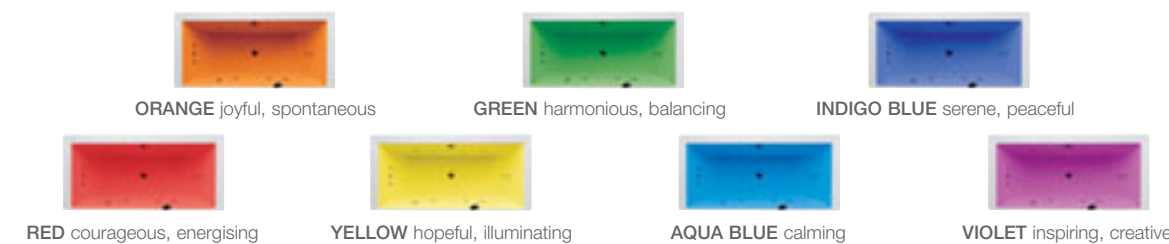

## WHIRLPOOL SYSTEMS

KOHLER® has perfected the art of targeted water massage. Our whirlpool baths incorporate a unique combination of hydrotherapy, chromotherapy and air massage that encourage well-being and relaxation.

Delivering powerful and directed massage through adjustable water jets, a Kohler whirlpool will help to alleviate tension and stress. Your muscles will relax with in the warm water and the hydro-massage system targets different parts of your body, encouraging blood flow through your limbs.

## CHROMATHERAPY

Using the soothing qualities of colour to relax mind and body, the chromotherapy function features a seven-colour sequence, with each colour believed to have a unique effect on the bather. Warm colours tend to stimulate and encourage a sense of alertness, whereas cool colours seem to deliver a calming effect. Allow the blend of seven colours to sequence or isolate an individual colour to suit your mood. To best enjoy the chromotherapy experience, dim the bathroom lights and let the colours wash over your body and mind.

# CAST IRON BATHS

Kohler brings you the elegance of traditional bathing with a modern twist. Handcrafted from genuine KOHLER® Cast Iron, the Cléo bath is an authentic choice for the period home but can also make an eclectic style statement in a contemporary setting. The Tea-for-Two bath features an extra-deep basin intended for a luxurious soaking experience. The drop-in options of the Repos and Parallel bath offer even more design flexibility.

# ACRYLIC BATHS

Sometimes the simple approach is the best approach. KOHLER® acrylic baths are uncomplicated and well conceived. Just calm, quiet water and you. Ergonomically crafted to gently support the natural curves and angles of the body, the durable acrylic material provides a smooth finish that resists chipping and cracking, and is easy to clean. So nothing comes between you and all-encompassing peace of mind.
